"The Old Standby!"  
said a stockholder  
OF the 20,161 stockholders who now own the Preferred Stock of Central Maine Power Company most of them invested in this security to hold as a permanent investment.  
They believed they could lay it away in their strong boxes with perfect faith in the security of its principal and ability to pay dividends through all kinds of conditions.  
For twenty-six years—102 consecutive times—dividends have been earned and paid promptly on time.  
Even during the present troublesome times, the earnings back of this Preferred Stock are greater than that of many high grade bonds. For the first quarter this year its Preferred Stock dividends were earned over 1.6 times.  
Little wonder then that holders of Central Maine Preferred look upon this security as "their old standby."
